The Impeccable Office

Cynthia Knox, high priestess of design, illuminates the path to organizational nirvana

If design is your religion and organization your mantra, russell + hazel (russellhazel.com) is your temple. Founded by Cynthia Knox, russell + hazel's thoughtfully designed, eco-friendly office products illuminate the path to personal and professional nirvana. Novitiates may begin with a single notebook in robin's egg blue or a package of chic Chicklets sticky notes in lime, orange, hot pink and Caribbean blue. Well on the way to becoming zealots, converts outfit their armchairs, cubicles and corner offices with storage boxes, binders, file folders and other jewels of productivity in rich espresso, elegant orchid, pale celery, austere charcoal, passionate red-orange, purest white and other inspirational colors. If your heart is singing and your soul is aflutter, make a pilgrimage to russell + hazel's flagship retail mecca near Linden Hills in Minneapolis, worship online at the award-winning Web site or pay homage at one of the many retailers across the country who stock russell + hazel products, including Office Max, home to Knox's new KIT line of products. Good news—today is the first day of the rest of your organized life! —on | sv
