Fashion-forward lead

Do people always ask to borrow your pencil? To put a fine point on it, you might have trouble getting these sparklers back.

Austrian-made **Piffl pencils**, sheathed in black and topped with a **Strass Swarovski crystal**, are new to the U.S. market, distributed by russell + hazel. They come in 12 colors, and are priced 3 for \$20 at r+h, 4388 France Av. S., Minneapolis, 952-929-9000, and at Red Stamp Cards of Minneapolis, where they can also be purchased singly for \$7; www.redstampcards.com.

Fashion trumps function; these implements are sans eraser.

Notes

It was only a matter of time before television explored the latest twist in his-and-hers decorating. **"She's Moving In"** features couples newly cohabitating in *his* bachelor pad, and works out the design dilemmas with the help of design pros. The weekly series premieres at 9 p.m. Saturday on We TV.
